Paul,

I'm sure we can assist.

LTJG Ben Tuxhorn or one of our Response Officers will contact you.

Thanks for the opportunity to assist EPA.

CDR Richard Schultz, USCG  
Commanding Officer  
Atlantic Strike Team

Subject: Request for removal site support

Hi Commander,

We met at OSC Readiness in 2010 in Orlando. I'm in the process of starting up a new removal site in Newark, NJ. I'm doing a recon tomorrow or Monday with some other OSCs to take photos of the site and document drum labels etc. I am planning to do a Level "B" sampling event at the site in about 2 weeks and would like to enlist the support of the AST to do the entry and acquire samples for hazcating on site. The AST has done this for me in the past at two other sites and the info gained was used to justify the removal response. There are drums and tanks, both AST and UST, on the site, and I envision that I'd need about 15 - 20 containers sampled and hazcated in a one day event.

If you have the personnel to assist in this effort pls let me know with whom I can coordinate this effort. I think I can put a Sampling Plan and HASP together and use that for the entry.

Thanks in advance for any assistance!

regards,  
Paul Kahn
